**DETAILED ACTION**

***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-10,17,25-27,29-39 are rejected under 35 U.S.C. 102(b) as being anticipated by Kamiya'301 or Laurent article substantially for the reasons of record.

The amendments and remarks filled by applicants in their last response have been fully considered. The arguments have not been persuasive. The limitation that particle is "generally spherical" is believed to be inherently disclosed in the applied prior art. The rejections are proper and are maintained.
